Testing - What to Expect

VENOUS DUPLEX INSTRUCTIONS

A venous duplex or Doppler is an ultrasound or sonogram of the veins in your arms or legs. For this test, you will be lying on your back for up to an hour. To make your test as pleasant an experience as possible, please help us by following these guidelines: Wear a 2-piece outfit (shirt and pants or skirt). Please, ladies, do not wear panty hose for this test if we are testing your leg(s). If you have a mobility problem where lying still and/or on your back is an issue, please tell our scheduler or the technologist.
